

Mission Statement

It is our mission to help couples and individuals dealing with infertility achieve their dreams of becoming parents by providing financial and emotional support along their journey, as well as to provide education and resources.

Through our foundation we will raise money to provide financial grants for those seeking fertility treatments, surrogacy or adoption to lessen the financial burden that is too often associated with infertility.

We will set up social support groups to connect individuals and couples dealing with the emotional impact of infertility to help limit the feelings of isolation. Our vision includes working with other organizations with a similar mission to assist infertile couples to make the best individual decisions. We plan to do this by providing education and resources through our website and various other outlets.

We strongly believe that all couples and individuals who wish to love and care for a child should not be stripped of their dream or limited due to financial constraints. “Our Dream” is for those struggling with infertility to realize their dreams of parenthood.

What comes so naturally for many should not be such a hardship for millions of others.
